OUR SERVICES

The thermal waters that are born from our sources are rich in minerals, of therapeutic virtues and beneficial for the organism.

Particularly suitable for the treatment of arthoreumatic, otorhinolaryngological, respiratory, dermatological and female genital tract diseases.

The structure, in addition to the health director of the plant, makes use of doctors who are always present during the course of the therapies, and of the consultancy of various specialist medical figures including an orthopedist, otolaryngologist, a cardiologist and a dermatologist.

The Thermal Structure has four branches affiliated with the National Health Service:

- Sludge and therapeutic baths -

- Balneotherapy

- Aereosol inhalation

- Endotympanic insufflations

In support of the structure, the hotel, the bar service and the restaurant.

- e-mail;
- phone;
whatshapp al n. 0771/670007
- direct request;

Booking treatments at least two weeks in advance is recommended.

The patient who wants to access spa treatments, in addition to the required documentation, must be examined by the doctor of the spa establishment.

The patient will be able to access treatment if the doctor finds no contraindications.

Patients can access only one treatment cycle per year, with the exception of some cases which benefit from particular forms of exemption.

In this facility, people with reduced mobility, unaccompanied children and women in an advanced state of pregnancy have the right to priority in receiving the requested services.
